M.S. in Sport & Recreation Administration

The M.S. in Sport & Recreation Administration provides students the opportunity to learn and develop sport and recreation program administration competencies to pursue careers in the sport, recreation, tourism, health and related professions. The program affords a unique opportunity to unite classroom instruction and practical in-field applications while working with an experienced and nationally renowned faculty. All students are encouraged to attend professional conferences, workshops and achieve professional credentials. These opportunities augment the knowledge base and skills developed and add value to your degree option. Total Hours: 36
